

Employee Profile Update QA Testing - Complete QA Document

Prepared by: **Ruknuddin Asrari** | Software Quality Engineer | The Career Insights Hub LLC

Project Overview

This QA document covers employee profile update testing, including positive scenarios, validation scenarios, negative scenarios, bug report, execution summary, and sample screenshots.

Scope

Employee name, phone number, email, address, designation, required fields, invalid formats, saved data, success messages, and error messages.

Test Cases

ID	Type	Title	Precondition	Steps	Expected	Actual	Status
TC-001	Positive	Open employee profile edit page	User is logged in and has profile access	Navigate to Employee Profile > Edit Profile	Edit profile page opens with current details populated	Edit profile page opened correctly	Pass
TC-002	Positive	Update employee first and last name	Edit profile page is open	Change First Name and Last Name, then click Save	Updated name is saved and displayed on profile summary	Updated name displayed after save	Pass
TC-003	Positive	Update phone number with valid format	Edit profile page is open	Enter valid phone number 9876543210 and save	Phone number is accepted and saved	Phone number saved successfully	Pass
TC-004	Positive	Update email with valid format	Edit profile page is open	Enter employee.qa@example.com and save	Email is accepted and saved	Email saved successfully	Pass
TC-005	Positive	Update address field	Edit profile page is open	Update address line, city, state, and ZIP code, then save	Address details are saved correctly	Address saved correctly	Pass
TC-006	Positive	Update designation	Edit profile page is open	Change designation to Senior QA Engineer and save	Designation is updated and visible in profile	Designation updated correctly	Pass
TC-007	Positive	Update multiple profile fields together	Edit profile page is open	Update name, phone, address, and designation, then save	All updated values are saved correctly	All values saved correctly	Pass
TC-008	Validation	Required name field validation	Edit profile page is open	Clear First Name and click Save	System displays required field validation message	Validation message displayed	Pass
TC-009	Validation	Required phone field validation	Edit profile page is open	Clear Phone Number and click Save	System displays phone required validation message	Validation message displayed	Pass
TC-010	Validation	Required designation field validation	Edit profile page is open	Clear Designation and click Save	System displays designation required validation message	Validation message displayed	Pass
TC-011	Negative	Invalid phone number with alphabets	Edit profile page is open	Enter abcdefghij in Phone Number and click Save	System rejects input and displays valid phone format error	Phone validation error displayed	Pass
TC-012	Negative	Invalid phone number with less digits	Edit profile page is open	Enter 12345 in Phone Number and click Save	System rejects short phone number	Short phone number rejected	Pass
TC-013	Negative	Invalid phone number with special characters	Edit profile page is open	Enter @#\$%^& in Phone Number and click Save	System rejects special characters	Special characters rejected	Pass

ID	Type	Title	Precondition	Steps	Expected	Actual	Status
TC-014	Negative	Invalid email missing @ symbol	Edit profile page is open	Enter employee.example.com and click Save	System displays invalid email format error	Email validation error displayed	Pass
TC-015	Negative	Invalid email missing domain	Edit profile page is open	Enter employee@ and click Save	System rejects incomplete email	Incomplete email rejected	Pass
TC-016	Validation	Maximum length validation for name field	Edit profile page is open	Enter more than 50 characters in First Name and save	System prevents or rejects excessive characters	Long name validation displayed	Pass
TC-017	Validation	Maximum length validation for address field	Edit profile page is open	Enter very long address text and save	System handles limit properly without UI break	Address limit handled correctly	Pass
TC-018	UI	Cancel profile update	Profile edit form has unsaved changes	Click Cancel	Changes are discarded and user returns to profile page	Unsaved changes discarded	Pass
TC-019	Data Integrity	Verify saved details after page refresh	Profile details have been updated	Refresh profile page after save	Updated details remain saved after refresh	Updated data persisted	Pass
TC-020	Data Integrity	Verify saved details after logout and login	Profile details have been updated	Logout, login again, open profile	Updated details still display correctly	Updated details retained	Pass
TC-021	Message	Success message after valid update	Valid profile update is submitted	Click Save with valid details	System displays clear success message	Success message displayed	Pass
TC-022	Message	Error message after invalid update	Invalid profile update is submitted	Enter invalid email and click Save	System displays clear error message near the invalid field	Error message displayed	Pass
TC-023	Security	Verify unauthorized user cannot edit another employee profile	User is logged in with normal employee role	Attempt direct URL access to another employee edit page	Access is denied or redirected	Access denied displayed	Pass
TC-024	Regression	Verify existing profile data does not disappear	Profile page contains existing employee data	Open edit page and click Save without changes	Existing data remains unchanged	Existing data preserved	Pass
TC-025	Usability	Verify labels and required markers are clear	Edit profile page is open	Review form labels, required markers, and field hints	All fields have clear labels and required fields are marked	Labels and markers visible	Pass

Bug Report

Bug ID	Severity	Priority	Status	Title	Description	Recommended Fix
BUG-001	Medium	High	Open	Phone number accepts alphabetic characters in some browsers	Phone number field should restrict alphabets consistently.	Add frontend pattern validation and backend numeric validation.
BUG-002	Low	Medium	Open	Long address text causes form alignment issue	Very long address input overflows on small screens.	Add input length restriction and responsive wrapping.
BUG-003	Medium	Medium	Resolved	Success message disappears too quickly	User may miss confirmation after saving profile changes.	Increase message display time or keep message until user action.

Execution Summary

Metric	Value
Total Test Cases	25
Passed	25
Failed	0
Blocked	0
Bugs Logged	3
Final Status	Pass - profile update module is acceptable with minor improvements recommended

01 profile update valid data

Employee Profile QA

Valid Profile Update

Employee details updated and saved successfully

PASS

Name: Ruknuddin Asrari

Phone: 9876543210

Email: employee.qa@example.com

Address: Los Angeles, CA

Designation: Software Quality Engineer

Success: Profile updated successfully

Prepared by Ruknuddin Asrari - Software Quality Engineer

02 required field validation

Employee Profile QA

Required Field Validation

PASS

Mandatory fields display validation messages

First Name: Required field validation displayed

Phone Number: Required field validation displayed

Designation: Required field validation displayed

Result: Save blocked until required fields are completed

Prepared by Ruknuddin Asrari - Software Quality Engineer

03 invalid phone email validation

Employee Profile QA

Invalid Format Validation

Phone and email validation checks

PASS

Phone Number: abcdefghij - Rejected

Email: employee.example.com - Rejected

System Response: Clear error messages displayed

Result: Invalid data not saved

Prepared by Ruknuddin Asrari - Software Quality Engineer

04 execution summary

Employee Profile QA

Test Execution Summary

Final QA execution result

PASS

Total Test Cases: 25

Passed: 25

Failed: 0

Blocked: 0

Bugs Logged: 3

Final Result: Pass with minor recommendations
